SUBJECT: WEEKLY ITEMS 19 - 25 September 1985

1. On Tuesday and Wednesday, 24 and 25 September, at the invitation of OLL, two members of the Senate Select Committee attended the day and a half EOD Security Indoctrination Briefing in GA-13 Hqs. This security overview was well received.

2. On Thursday, 19 September 1985, the Security Officers Training Program #26 began with twenty attendees. This course is designed to familiarize new Security Officers with the Office of Security's mission and functions and allows them to gain an understanding of how Security serves the Agency as a whole. During this four week course guest speakers discuss the structure of OS and its interrelated disciplines. The students are also offered "hands on" familiarization with operational support activities including firearms use and handling, safety and CPR orientation and an introduction to the principles of surveillance.

3. On Friday, 20 September 1985, two officers from SEG attended a meeting to discuss the second running of the DDA Administration Career Training Course which is scheduled for 14 October - 8 November 1985. This course was designed by the Office of Training and Education to provide a thorough familiarization with the support functions of each of the DDA's nine offices. Twenty DDA careerists will attend this course and the Office of Security will participate from 23 - 25 October. SEG is currently coordinating these three days' activities with the various OS offices concerned to provide a "hands-on" introduction to three vital functions of the Office, including field office operations, the adjudication process and physical and technical security. The next meeting is scheduled for Monday, 30 September.
